**OHNWARD INTERN GROUP PROJECT:** The Ohnward intern group presented their intern project to the City Council for a bird landscaping (bird watching) area on the Copper Creek Trail. Cole Sander, Logan Frerichs, Adrianna Fier, Dylana Luettt, and Marta Grant met with Ann Burns and Nancy Kieffer to discuss the Birdwatching Project that they would like to do for the City of Preston. The project would be about a half of a mile from the parking area. The focus is on the Wood Duck. The group stated the advantages of having a bird watch area. Patty Schmitt, Easton Valley School Principal, is interested in this project and the group discussed how it can be an educational area/tool. The 4-H club has committed to doing the upkeep and cleaning of the area. The quote for the project is for $496.31 at no cost to the City since each of the interns is given $100 and they are going to donate the money towards the project. M. Petersen asked the group why they chose Preston? The group stated the new walking trail has drawn people to the park so they thought this would make a nice addition. R. Petersen wondered if the group has a good rapport with the DNR since this would be good for other locations. R. Petersen also stated to contact the local conservation officer and let them do the legwork for future projects. The project would start next Tuesday (July 16, 2019). No other questions from Council. **MESH SCREEN SECURED TO THE PAVILION AT WESTSIDE PARK:** Nancy Kieffer presented to the council a quote for Side protection on the Pavilion. Wind has been an issue at the Pavilion and the mesh screen would be secured with hardware. The mesh “curtain” can either be used or left rolled up. The thought is to keep it rolled up and padlocked when not in use. If someone rents the pavilion then they would get the key for the padlocks, so if they would like to use the side screens to block wind and sun, they can. It would be the responsibility of the “renter” to roll the screens back up and secure with the padlock. The hope is the pavilion will be rented out more. N. Kieffer presented 2 different types of mesh, choosing to go with the second one which allows more visibility through the screen. The quote is $403.20 plus $100 for hardware. The Lion Club will erect. This is at no cost to the City. The Walking Path fund will pay for the improvements. The Mayor wondered if the screens will need to be taken down and stored in the Winter. N. Kieffer stated that no, they will be rolled up under the eaves. T. Sieverding wondered if they will screen out the sun and what is the cost. Yes, they will and at no cost to the City. M. Petersen made a motion to approve the installation of the mesh screens on the Pavilion at Westside Park. A. Sullivan seconded the motion. Ayes 5. Nays 0. Motion carried.

Schneider stated that he will be working closely with City Administrator, T. Weinschenk. M. Schneider suggested that Mayor Betts fill out a form to name T. Weinschenk as an alternate signer in the case that the Mayor is unavailable since there is a quick turn around on these documents. Mayor asked Council if they had any other questions. Weinschenk explained that this is Phase 1 and is a zero percent interest loan for Planning and Design expenses. P. Hoffman stated that there is $200,000 in the Sewer Fund to cover some expenses. T.
